

## LHAE Annual Doctoral Student Progress Form 2020-2021

The purpose of this form is to document a student's progress in their doctoral program and to record meetings with their assigned faculty advisor, or supervisor, or their thesis supervisory committee.

At OISE, all students are assigned a faculty advisor upon admission. The faculty advisor helps the student with planning course selection and academic issues associated with the program. The thesis supervisor is typically selected by the end of the second year and guides the student through the process of writing a thesis. The thesis supervisor may or may not be the same person as the faculty advisor.

In LHAE, doctoral students must have at least one documented meeting with their faculty advisor, thesis supervisor, or thesis supervisory committee each year. LHAE recommends that the meetings occur in March or April and requires that completed forms be submitted by the end of May.
