*Wise Life Management: Iranian and Syrian immigrants and refugees completed a survey assessing their wisdom and quality of life. In phase 3, interviews with the highest wisdom participants about their quality of life will be used to create recommendations for new immigrant and refugee families.*

*Transcribing and Coding interview data. Assistance with data analysis.*

*No special skills required (training provided). However, ability to understand and read Farsi and Arabic an asset.*

*To be determined based on team schedules in the new year.*
